

**EUROPEAN GATE
VALVES LIMITED**

quality gate valve manufacturer

circular damper

Designed for operation in hot gas and fume ducts.

Single circular butterfly damper using stub shafts, roller bearings, stuffing box shaft seal and actuator to customer requirements.

Diameters from 300mm to 3,000mm.

Standard or custom flange drilling

Temperatures to 350°c. Manual, Electric, Pneumatic or Hydraulic actuation. Carbon Steel, Stainless Steel or Abrasion Resistant Steel Construction

reliability
maximum
life

rectangular damper

Single rectangular butterfly damper using stub shafts, roller bearings, stuffing box shaft seal and actuator to customer requirements.

Sizes from 250mm x 250mm. to 1,500mm x 1,500mm.

Standard or custom flange drilling.

Gas Dampers

EUROPEAN GATE VALVES LIMITED

quality gate valve manufacturer

multi-louvre damper **reliability** **maximum** **life**

Fabricated body using folded sheet to form two connecting flanges.

Multi-Rectangular butterfly damper using stub shafts, roller bearings, stuffing box shaft seal and actuator to customer requirements.

Sizes up to 3,000mm. x 5,000mm to customer dimensions.

Fully tested instrumentation and electrical control packages, cabinets and switch gear can be supplied. Pneumatic and hydraulic drive systems including piping, valving and reservoirs can also be accommodated.

guillotine damper

Designed for operation in hot gas and fume ducts. Single rectangular blade. Blade guided by a deflector which can contain a ceramic fibre seal.

Stuffing box blade seal and actuator to customer requirements.

Sizes from 250mm x 250mm. to 2,500mm x 2,500mm. Standard or custom flange drilling.
